- Coffee, Welcome & Introductions
- How to design a monitoring program that meets your objectives
- Reports from watershed groups on monitoring activities [5-7 minutes each]
  - Include in your summary:
    - Biological assessment
    - Chemical sampling
    - Stream visual assessment protocols
    - Riparian condition
    - Barrier assessment
- Reports from state and federal agencies on monitoring programs
- New techniques for watershed monitoring
- Hudson River Watershed Alliance update
- Hudson River Estuary Program update
- Brown bag lunch/networking
- Informal watershed updates and discussion- education, stewardship and other programs

RSVP to Barbara Kendall, HRWA Coordinator: [barbara@hudsonwatershed.org](mailto:barbara@hudsonwatershed.org) 914-474-2759

#### To Hudson Valley Watershed Groups:

Please **bring** a short written summary of:

1. Monitoring efforts
2. Existing progress/success stories
3. Challenges you are facing
4. Updated contact information so we may update the HRWA watershed groups website.
